Total number of phases \_\_\_\_\_ Phase number \_\_\_\_\_

**The applicant agrees to the following conditions:**

1. Submit all required information listed on the following pages for each phase of development, regarding the stormwater management(SM) plan and soil erosion and sediment control (SE/SC) plan.
2. Submit this application along with the \$1,000 application fee.
3. Notify representatives from the Village of Dwight, Natural Resources Conservation Service (NRCS), or the Army Corp of Engineers District of the pre-construction meeting to review implementation of the SM and SE/SC plans.
4. Allow Village, NRCS or Army corps of Engineers District representatives the right to conduct on-site investigations throughout all active construction phases to determine whether all necessary SM and SE/SC facilities have been installed and are functioning properly.
5. Upon commencement of earthwork or construction, document SM and SE/SC site inspections with all information being accurate and complete.
6. Comply with the Village's written and verbal recommendations regarding:
  - A. The SE/SC plan and corrections or changes made thereto.
  - B. Installation and maintenance requirements of the SM and SE/SC facilities on-site.
7. If any changes occur to the plans, schedules, etc., the applicant shall be responsible for notifying the Village.

Upon receipt of all required information, the SM and SE/SC plans will be reviewed within 20 working days and the applicant will be notified whether or not the plan meets technical standards.
